Description

With HPE Custom Labeled Media, you no longer have to label your own cartridges, saving you time and the risk of retrieval errors. For no extra charge, cartridges can be supplied with barcode labels bearing your own specified sequences. HPE rigorously tests its precision-engineered, high-resolution barcode labels using software unique to the HPE Automation Group to evaluate and warrant the performance of its labels. These labels are professionally applied in a clean environment to ensure 100% readability accurate storage and retrieval in busy, automated tape libraries. Custom labeled cartridges ensure 100% label readability and can be ordered online in packs of 20. For those customers who value the added security that RFID adds, customers have the option to integrate it into each label at minimal cost. The RFID tag is embedded into the back of the customized label and offers tracking, audit and security advantages for those with IT asset tracking systems.
